DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

3. This claim depends from a canceled claim.

Claim Rejections - 35 USC § 102

Claim Rejections - 35 USC § 103

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Art Unit: 1713

6. Claims 15-17 and 19-22 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Honda et al. US 5,321,186.

7. The rejection set forth under 35 USC 102/103 in the paper mailed 12/1/06 is deemed proper and is herein repeated. Applicants newly amended claims and the remarks filed in support thereof have been fully considered and have been found not persuasive.

Response to Arguments

8. Applicants have amended the claims so as to limit the oxide to the silica, alumina, zirconium and titanium species. Applicants then argue that the art is only concerned with tin or indium. This is not persuasive. The silica, alumina, zirconium and titanium species are added to the system and subjected to the claimed conditions. It is presumed that these oxides undergo the impregnation as claimed. Applicants have failed to show or allege otherwise. The fact that the reference is silent as to rendering polymers flame retardant is not germane to the pending claims. The polymer claims have been withdrawn/canceled.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 1713

In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
